

Fifth Annual Academic Leadership Summit
Developing Great Leaders: Elevating the Practice of Management and Supervision

September 12, 2022, 8:30 am – 1:00 pm
Horizon Room, Memorial Union

As academic leaders, our skills as managers and supervisors are central to determining the success of our units and the productivity, satisfaction, and retention of our faculty, staff, and graduate employees. The goal of this summit is to elevate the practice of management and supervision at OSU and contribute to a thriving university. Participants will be introduced to the university's new Managerial Competencies Framework (MCF), learn about pilot efforts, work interactively on case studies, and begin identifying how the framework can be applied in their leadership roles and units.
